

# How to change Table and Hall display settings in HDRestaurant?

HDRestaurant Tutorials

The table dashboard window displays tables created against each hall, with information such as the table number, table location, status, number of chairs etc., which provides you a snapshot of the table. The information displayed in these tables can be configured to show such information as required by you, for each of the statuses - Available, Occupied, Reserved, and Merged.

Steps to change table dashboard display settings are as given below:

1. Run **HDRestaurant**.
2. Click on **Table Manager**.

Invoice Type	Table Number	Payment Status	Order Status	Invoice Status	Inv Number	Invoice Date	Grand Total
Dine In	Table 2 - AC	Awaiting Payment	Order Placed	Saved	Hyp-I00001	13/03/2017 11:08 AM	
Take Away		Cleared	Order Placed	Saved	Hyp-I00002	13/03/2017 11:09 AM	
Home Delivery		Cleared	Delivered	Saved	Hyp-I00003	13/03/2017 11:13 AM	
Take Away		Cleared	Prepared	Saved	Hyp-I00004	13/03/2017 12:39 PM	
Take Away		Cleared	Prepared	Saved	Hyp-I00005	13/03/2017 12:43 PM	
Home Delivery		Cleared	Delivered	Saved	Hyp-I00006	13/03/2017 02:32 PM	
Take Away		Pending	Preparing	Saved	Hyp-I00007	13/03/2017 02:34 PM	

3. Click on **Table Settings**, in table dashboard window.

AC AC Hall

Non-AC Non AC Hall

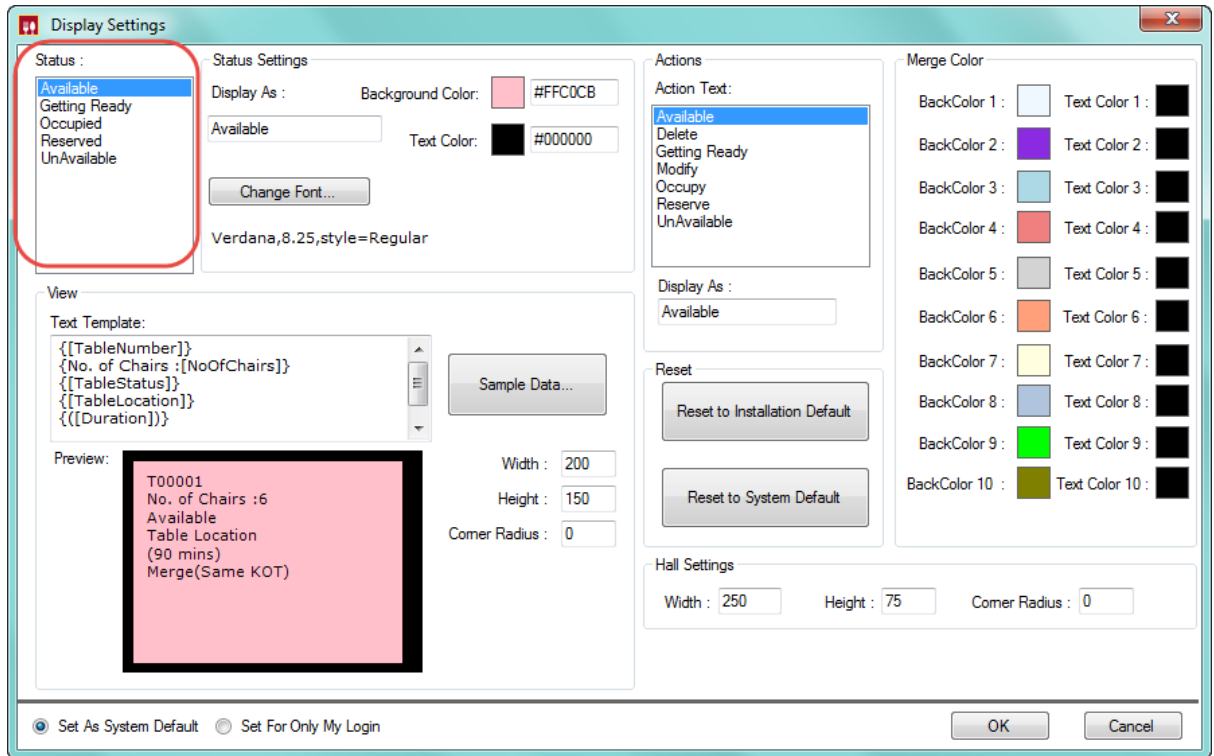

Current Hall : AC

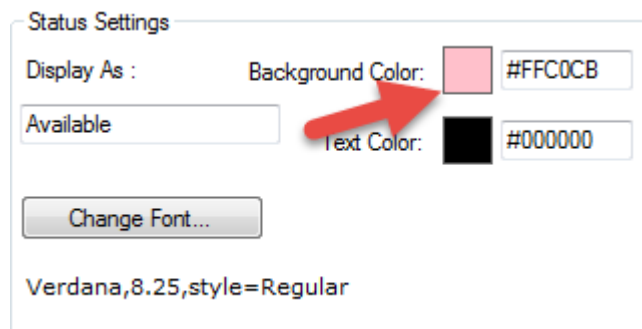

## To Change Table Status display settings

1. Select a status for which you intend to make changes from **Status** section of **Display Settings** window.

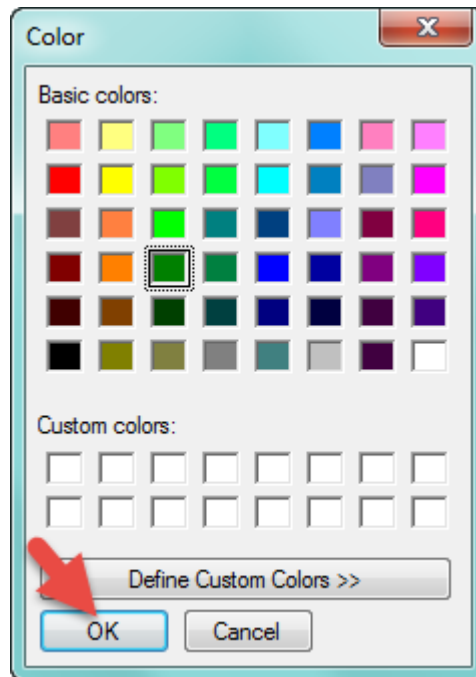

- In this example, I have selected status **Available** to change the display settings.
- You can change the Display Text, Background Color, Display Text Color and Font Style for the selected table status from **Status Setting** section of **Display Settings** window.
  - I. To change table Background display color:
    - Click on color box next to **Background Color** in **Status Setting** section.

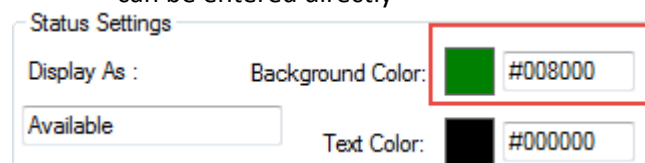

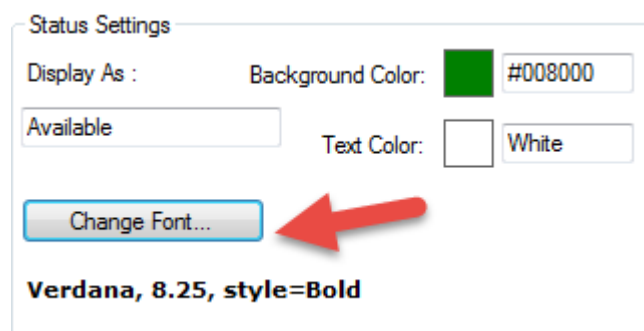

- Choose a color from color palette to apply as background color for selected table status.

- Click on **OK** to apply the changes.
- Or, if the Color code in **RGB** format is known, the same can be entered directly

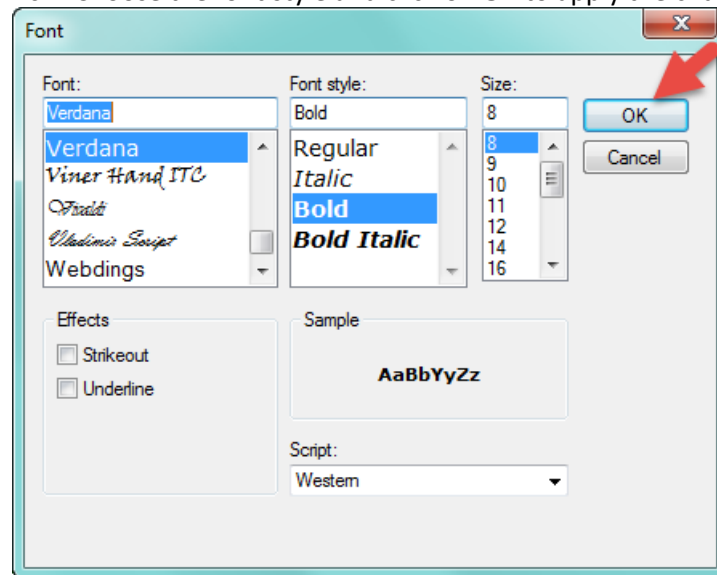

- II. Change the **Text Color** Similarly.
- III. To change the font style:
  - Click on **Change Font**.

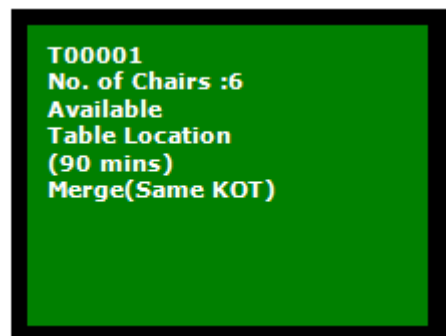

- Choose the font style and click on **OK** to apply the changes.

- You can preview the changes applied in Preview section of display settings as shown below.

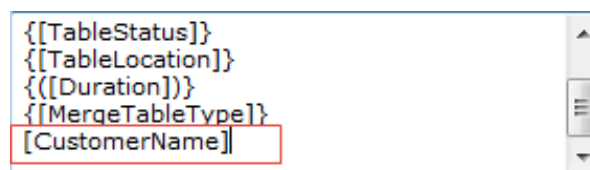

Preview:

- Follow the same steps to update other status of the table.

### Edit the text to be displayed on the table in the Text Template section.

1. Any data entered here is displayed as-it-is in the table flashcards.
2. To display dynamic information such as customer name, status of the table, etc., enter the corresponding template name enclosed in square brackets. For e.g., [CustomerName], [HallName], [Status], etc.

3. To see the available list of templates, click on **Sample Data** button.

**Display Settings**

Status : Available, Getting Ready, Occupied, Reserved, UnAvailable

Status Settings: Display As: Available, Background Color: #008000, Text Color: White, Change Font... Verdana, 8.25, style=Bold

View: Text Template: {{[TableNumber]}}\n{{No. of Chairs :[NoOfChairs]}}\n{{[TableStatus]}}\n{{[TableLocation]}}\n{{[Duration]}}. Preview: T00001\nNo. of Chairs :6\nAvailable\nTable Location\n(90 mins)\nMerge(Same KOT)

Sample Data... Width: 200, Height: 150, Corner Radius: 0

Reset: Reset to Installation Default, Reset to System Default

Hall Settings: Width: 250, Height: 75, Corner Radius: 0

Set As System Default, Set For Only My Login, OK, Cancel

4. The texts in Uppercase are the available templates.
