

How to backup of my database in HDRestaurant?

HDRestaurant Tutorials

Below are steps that will show you how you can take back up of your database in **HDRestaurant**

1. Run **HDRestaurant**.
2. From the Restaurant Dash click on **Set-Up** Button.

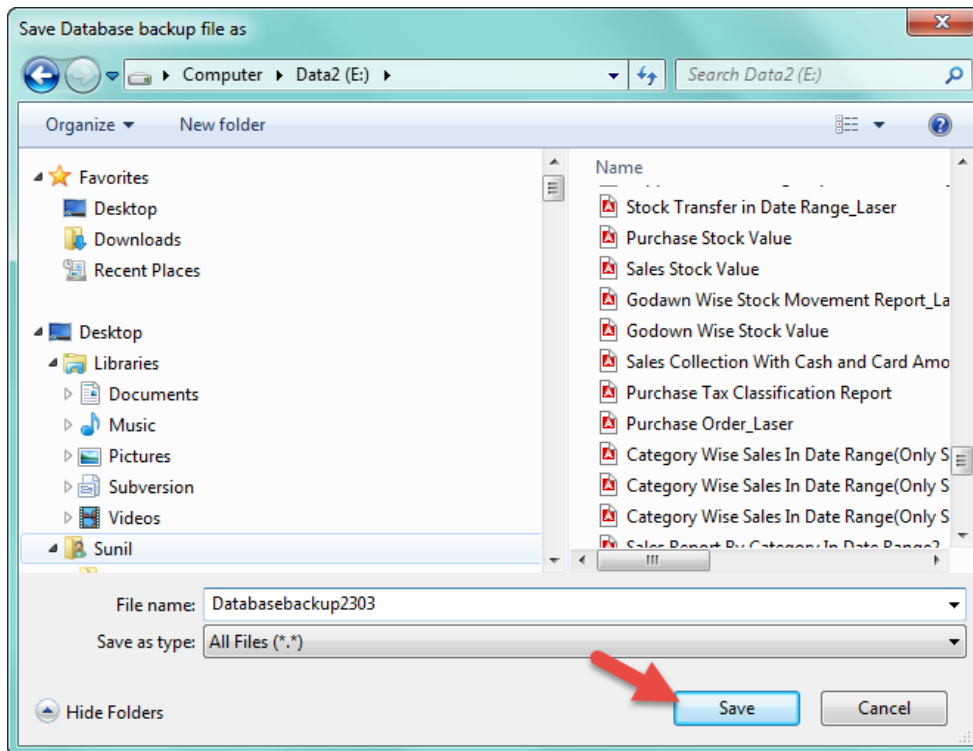

3. In **Set-up**, click on **Backup Database** button.

4. In the 'Save Database Backup File' window that gets opened, give a name for your backup file and click on **Save**.

5. On successful backup you will see a message as shown below, click on **Ok**.
