

How to check Stock Ledger?

HDPOS smart Tutorials

A business can have number of godowns and more than one company. It's possible that multiple companies are sharing a single godown. In such case it becomes necessary to know how much stock is being received by each company. So HDPOS smart is providing a great feature through which we can select a company in the Stock Ledger to view the stock for each respective company individually.

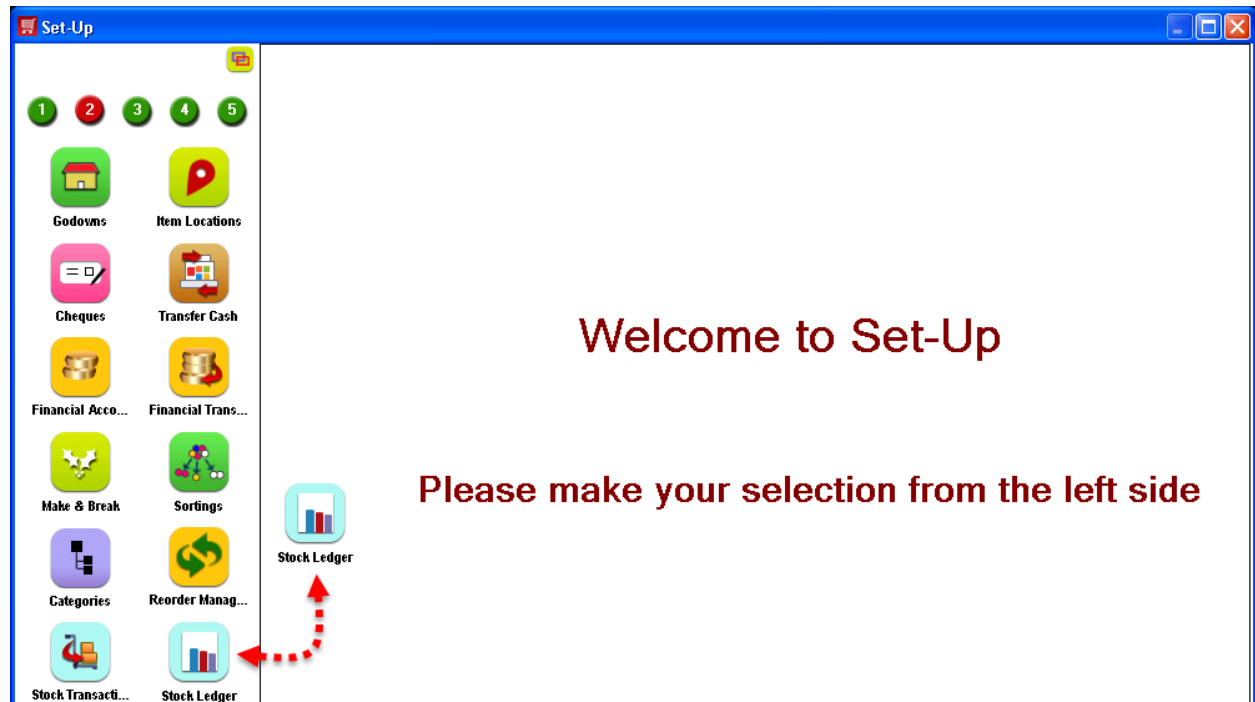

To check stock ledger, follow the steps given below:

1. Run **HDPOS smart** and click on **Set-Up** button.

S No.	Barcode	Item Name	Qty / Weight	Measuring Unit	Unit Price with Tax	Total with Tax
-------	---------	-----------	--------------	----------------	---------------------	----------------

2. From the 2nd page of Set-Up, click on **Stock Ledger**.

3. You can see **Stock Ledger** screen as shown below.
- Company:** All the companies in your database are listed here. Select a company for which you want to see the stock details.
 - Godown:** Select the godown for which you want to stock details.
 - Item:** Select the item for which you want to see the stock details.
 - From and To:** Enter the **From** and **To** dates and click on View Details button.
 - You will see **Opening Stock** and **Closing Stock** quantity of the selected item.
 - Show only stock Correction Transactions** checkbox: Check this checkbox if you want to see only the stock correction transactions for the selected item.
 - Show only Dump stock Transactions** checkbox: Check this checkbox if you want to see only the dump stock transactions for the selected item.
