

# How to configure Set-Up window as startup window in HDPOS smart?

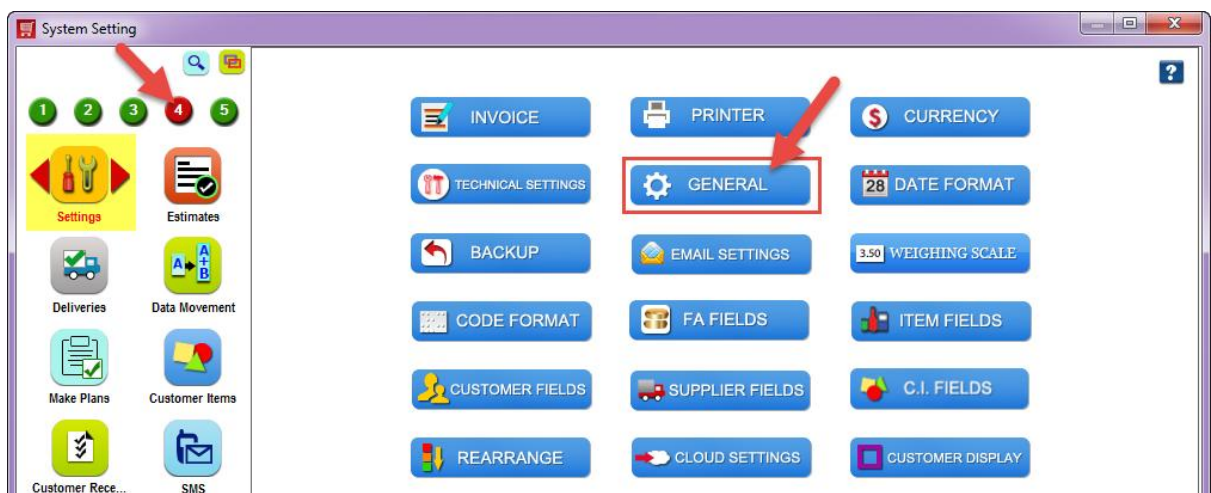

HDPOS smart Tutorials

HDPOS smart allows you to configure startup window as Set-Up window or Billing Window for your convenience. By default HDPOS smart starts with billing window as startup window. To configure Set-Up window as startup window follow the steps below:

1. Run **HDPOS smart**.
2. Click on **Set-up** button from **Main Screen**.

3. Go to **4<sup>th</sup> Page**, select **Settings** icon. Click on **General** Button from **System Settings** window.

4. In **General Setting** window, click on **Application** tab. In Application portion select **Startup Windows** as **Setup Window**.

The screenshot shows the 'General Setting' window with the 'Application' tab active. The 'Startup Windows' dropdown menu is highlighted with a red box and set to 'Setup Window'. A red arrow points to the 'Apply' button at the bottom right of the window.

5. Click on **Apply**.
6. Restart HDPOS smart. You will see **Set-up** window as startup window.

**Note:** 1) Any changes made to startup window, will require a restart of the HDPOS smart.  
2) Any changes made to startup window are user (login) specific.
