

How to connect Business Location with eShop?

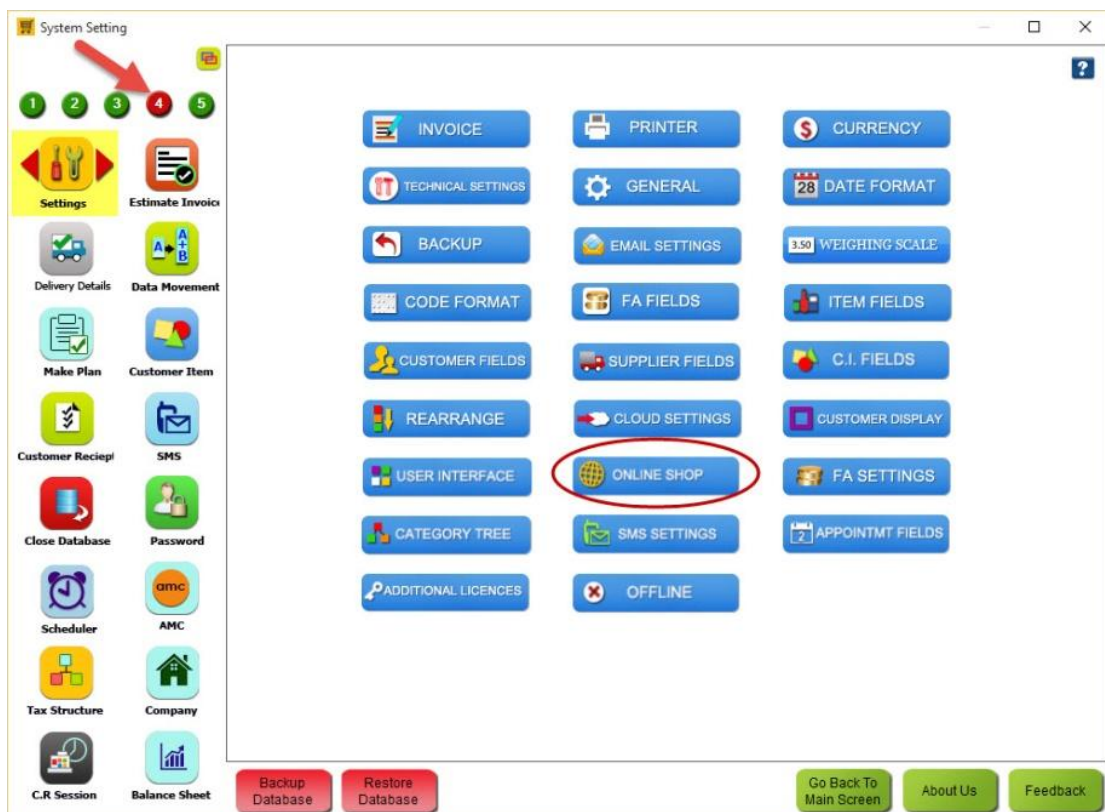

HDPOS smart Tutorials

To connect Business Location with eShop, you need to follow below steps:

1. Run **HDPOS smart**. From the **Main Screen**, click on **Set-Up** button.

2. Go to 4th page of **Set-Up**, click on **Settings** button. From **System Settings** screen, click on **ONLINE SHOP** button.

3. You will see the screen of **Online Shop Settings** as shown below. Enter the all required details.

- **eShop Business Location:** Select your business location name which you are going to link with Online Shop.
 - If you want to use a separate Business Location for Online Shop, you can create another Business Location and select that in the field of eShop Business Location.
 - For the eShop business location, you can associate any godown in HDPOS as default godown.(Make sure you have stock of items in that godown)

Note: Stock of items will be reduced from the godown that is associated with selected business location.
