

How to create a Warehouse in HDPOS smart?

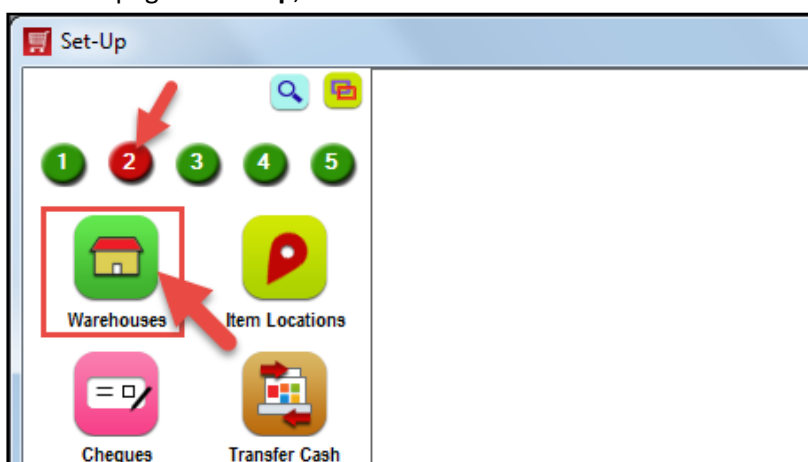

By default a Warehouse gets created in HDPOS smart when a Business location is created. That will be associated with business location. You can create a Warehouse which is not associated with any business location.

To create a Warehouse in HDPOS smart, follow the steps below:

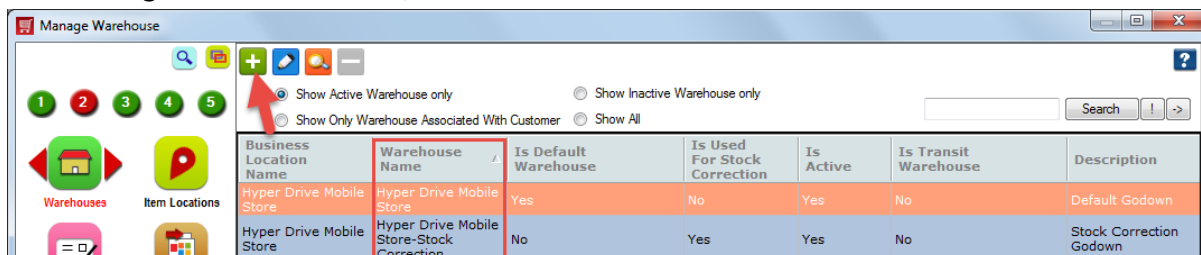

1. Run **HDPOS smart** and Click on **Set-Up** button.

2. From 2nd page of **Set-Up**, click on **Warehouses**.

3. From **Manage Warehouse** screen, click on **Add Warehouse**.

Here you can see one stock Warehouse and one stock correction Warehouse that will be added by default when you create a Business Location.

4. Enter name and description for the Warehouse from **Add New Warehouse** screen.

Warehouse Name : Sanjaynagar Warehouse

Description : Warehouse located in 4th block, Sanjaynagar

Is Active

Save (F8) Cancel

5. You can see the newly created Warehouse in **Manage Warehouse** screen.

Manage Warehouse

Show Active Warehouse only Show Inactive Warehouse only

Show Only Warehouse Associated With Customer Show All

Business Location Name	Warehouse Name	Is Default Warehouse	Is Used For Stock Correction	Is Active	Is Transit Warehouse	Description
Hyper Drive Mobile Store	Hyper Drive Mobile Store	Yes	No	Yes	No	Default Godown
Hyper Drive Mobile Store	Hyper Drive Mobile Store-Stock Correction	No	Yes	Yes	No	Stock Correction Godown
	Sanjaynagar Warehouse	No	No	Yes	No	Warehouse located in 4th block, Sanjaynagar

Note: When you create a new Warehouse it won't be specific to a particular business location. It will be common to all business locations in case of multiple business locations.
