

How to create invoice of the visit which is using the package?

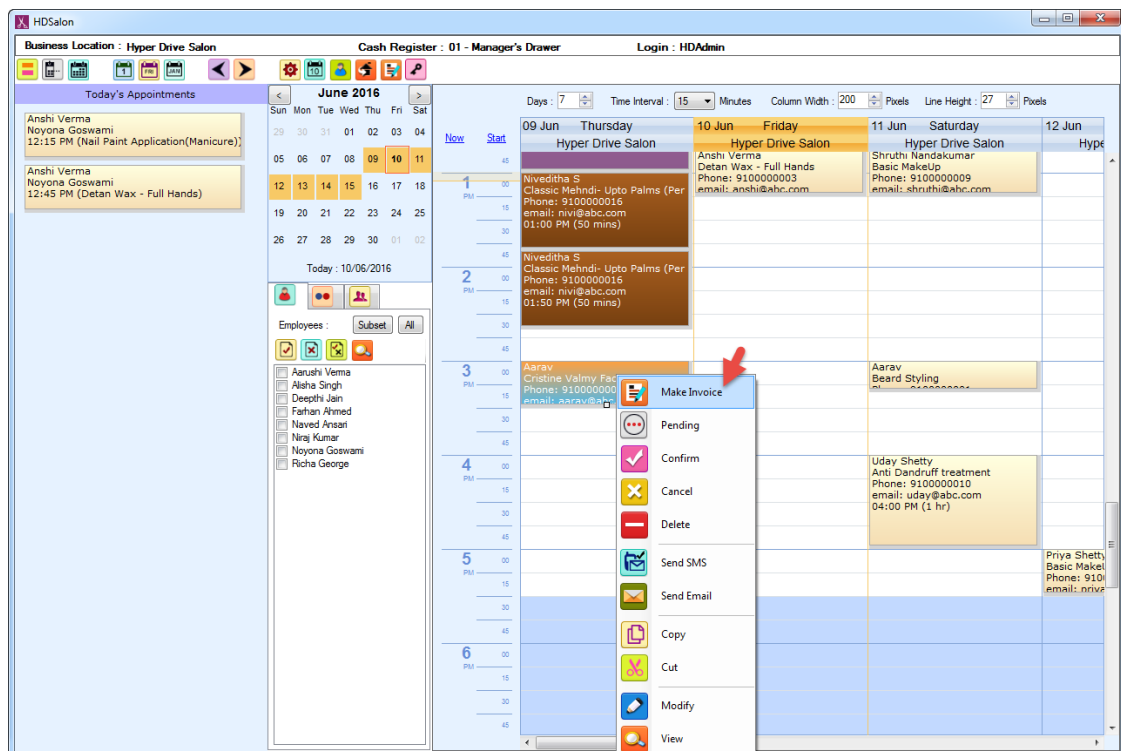

To create invoice of the visit which is using the package, you need to follow below steps:

1. Run **HDSalon**.
2. From **Main Screen**, right click on **Visit** and click on **Check in**.

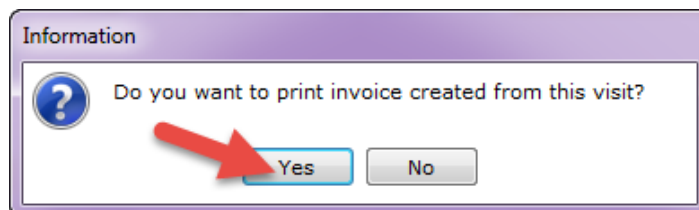

3. Right click on **Visit** and click on **Make Invoice**.

4. Click on **Yes** to print Invoice. Otherwise click on **No**

Note: When an invoice is created against a sold package, **Package account** of the selected business location is **debited**, and your **Sales account** is **credited** with the value of the services.
