

How to add combo item in HDRestaurant?

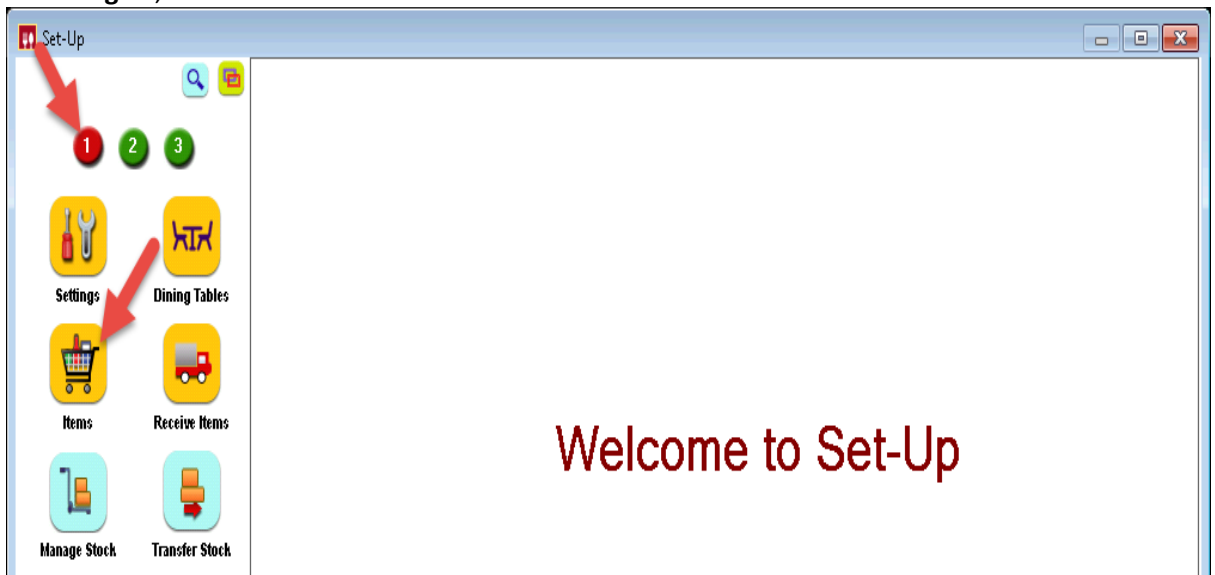

HDRestaurant Tutorials

To create the combo item, follow the steps below.

1. Run **HDRestaurant**.
2. Click on **Set-up** button.

3. Go to **Page 1**, click on **Items**.

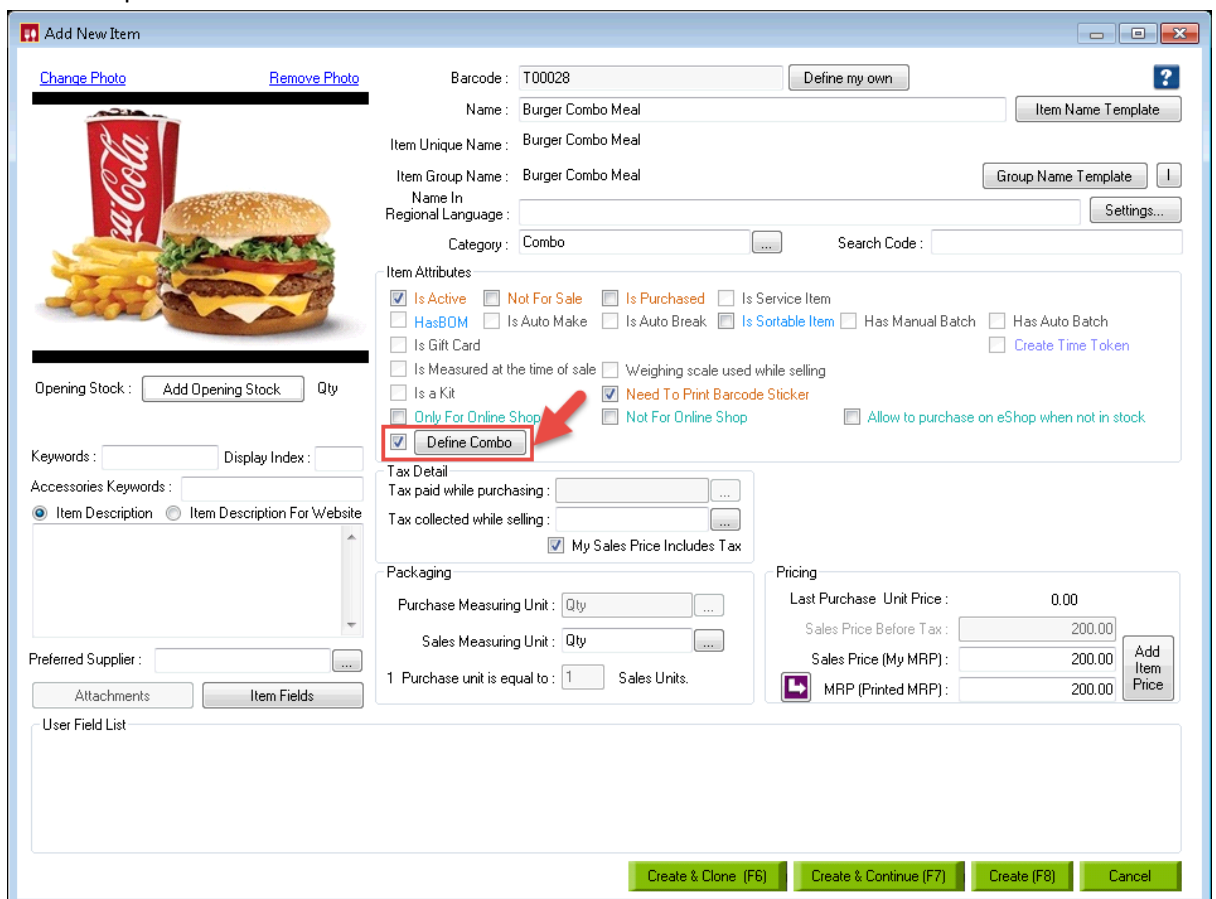

4. From the **Manage Items** page, click on the **Add Item** button.

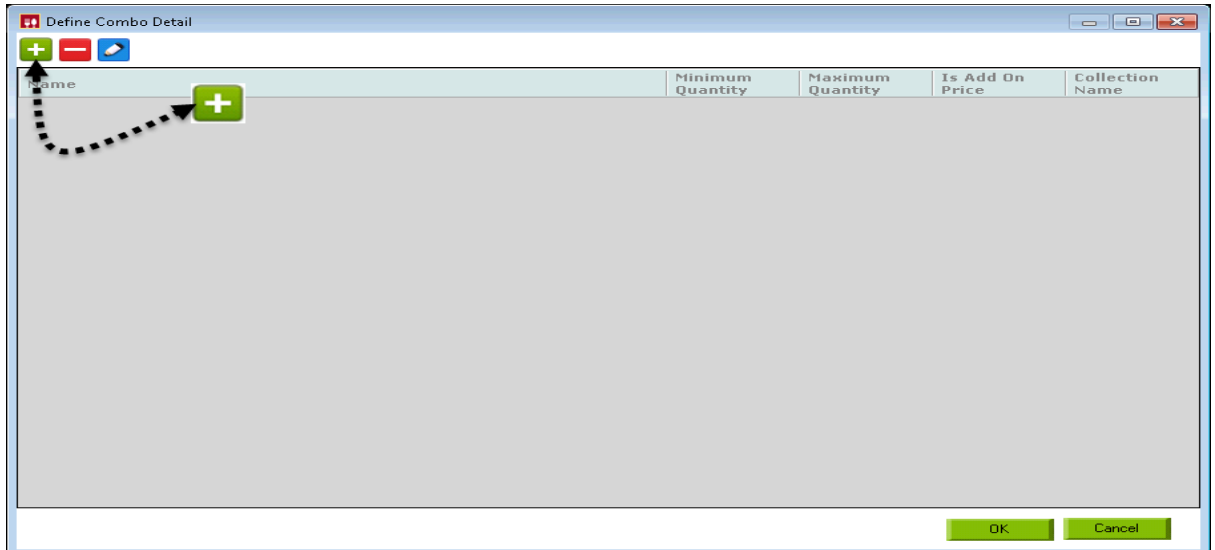

5. Fill the required details and check the **Is a Combo** checkbox.

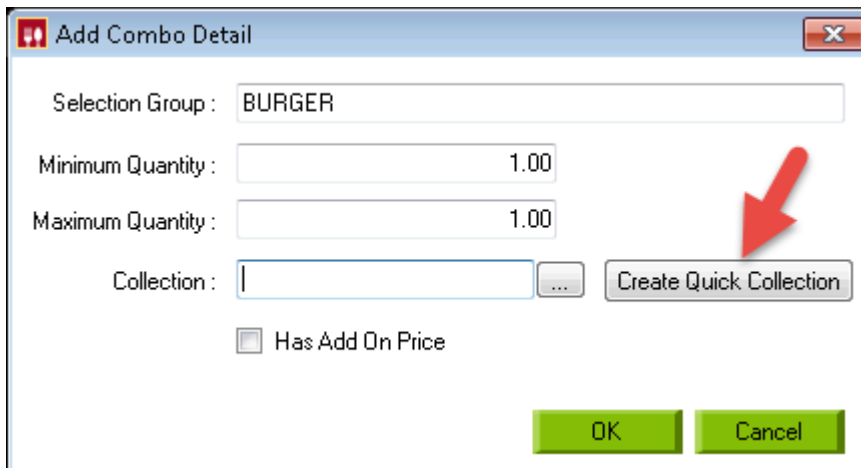

6. Click on **Define Combo** Button.
7. And **Define Combo Details** screen will appear.
8. Click on **Add Combo Element** button.

9. The **Add Combo Detail** window will appear.

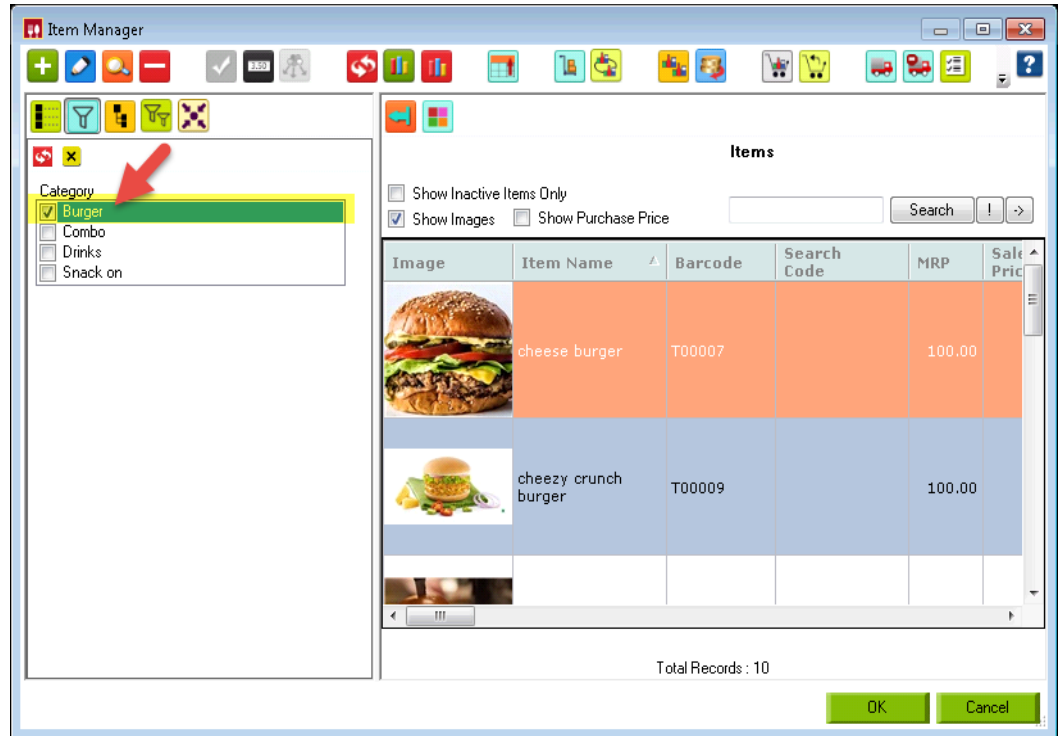

- **Selection Group:** Give a display name for that item collection in the combo.
- **Minimum Quantity:** This specifies that minimum quantity of the combination should be present in the combo.
- **Maximum Quantity:** This specifies that the quantity of that collection should not exceed the specified quantity and if the quantity is kept as zero than the count will be unlimited for that collection.
- **Collection:** Select the item collection to be included in the combo.
- **Has Add On Price:** If this check box is checked and while making a sales invoice, if the item quantity exceeds the mentioned minimum quantity from the selection group, will be considered as add-on item and will be charged according to the sales price of that item.

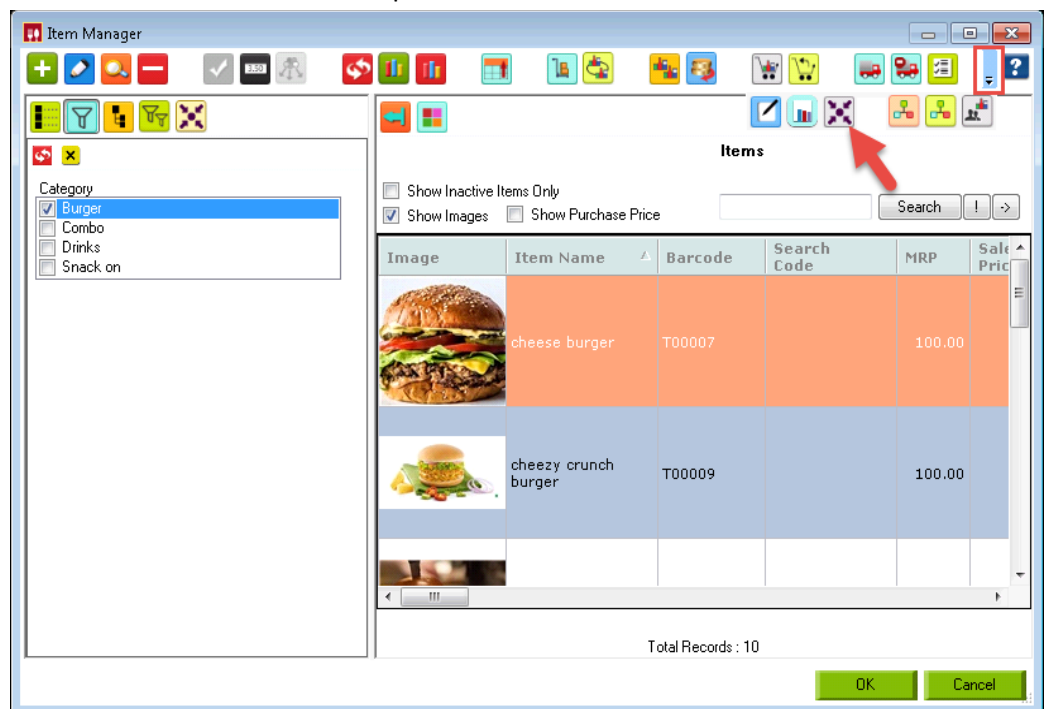

To create a new item collection

- Click on Create Quick Collection.
- The **Item Manager** screen will appear. Select the Category and sub categories for the collection. Here I have selected category: **Burger**.

- Select **Create Collection** tool strip button.

- **Quick Collection** screen will be displayed. Name the new collection and click on **Create**.
