

How to define offer on item collections?

HDPOS smart Tutorials

HDPOSsmart allows you to group item based on various criteria, called collections. These collections can be simply items with a certain attribute, such as red colour, or have complex definitions such as all items belonging to certain categories which are of certain colours, and have any other such additional attributes specified. You can later define offers on collections.

To define an offer on item collections, please follow the steps below:

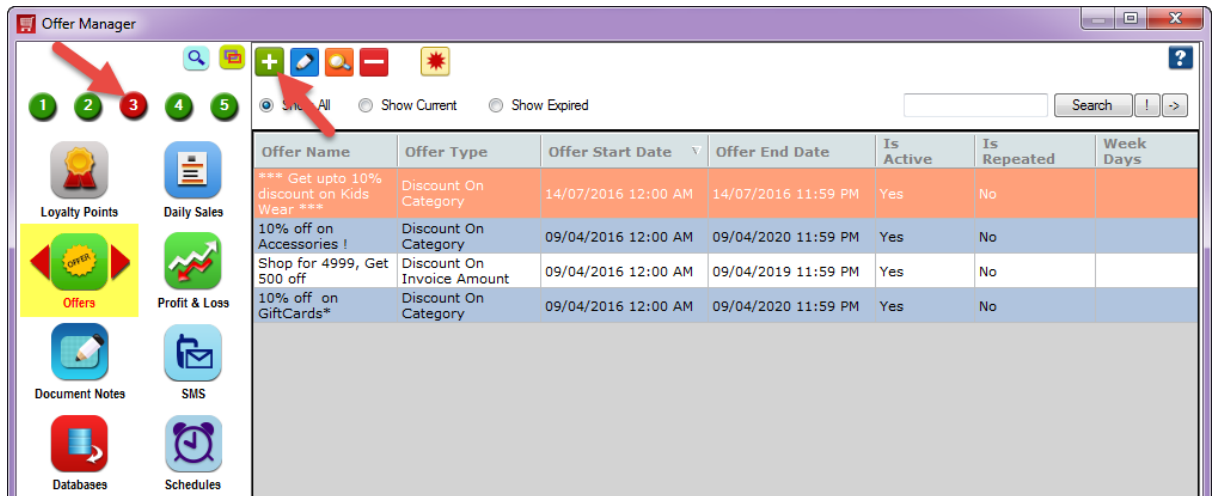

1. Run **HDPOS smart**.
2. Click on **Set-up** button from **Main Screen**.

S No.	Barcode	Item Name	Qty / Weight	Measuring Unit	Unit Price with Tax	Total with Tax
-------	---------	-----------	--------------	----------------	---------------------	----------------

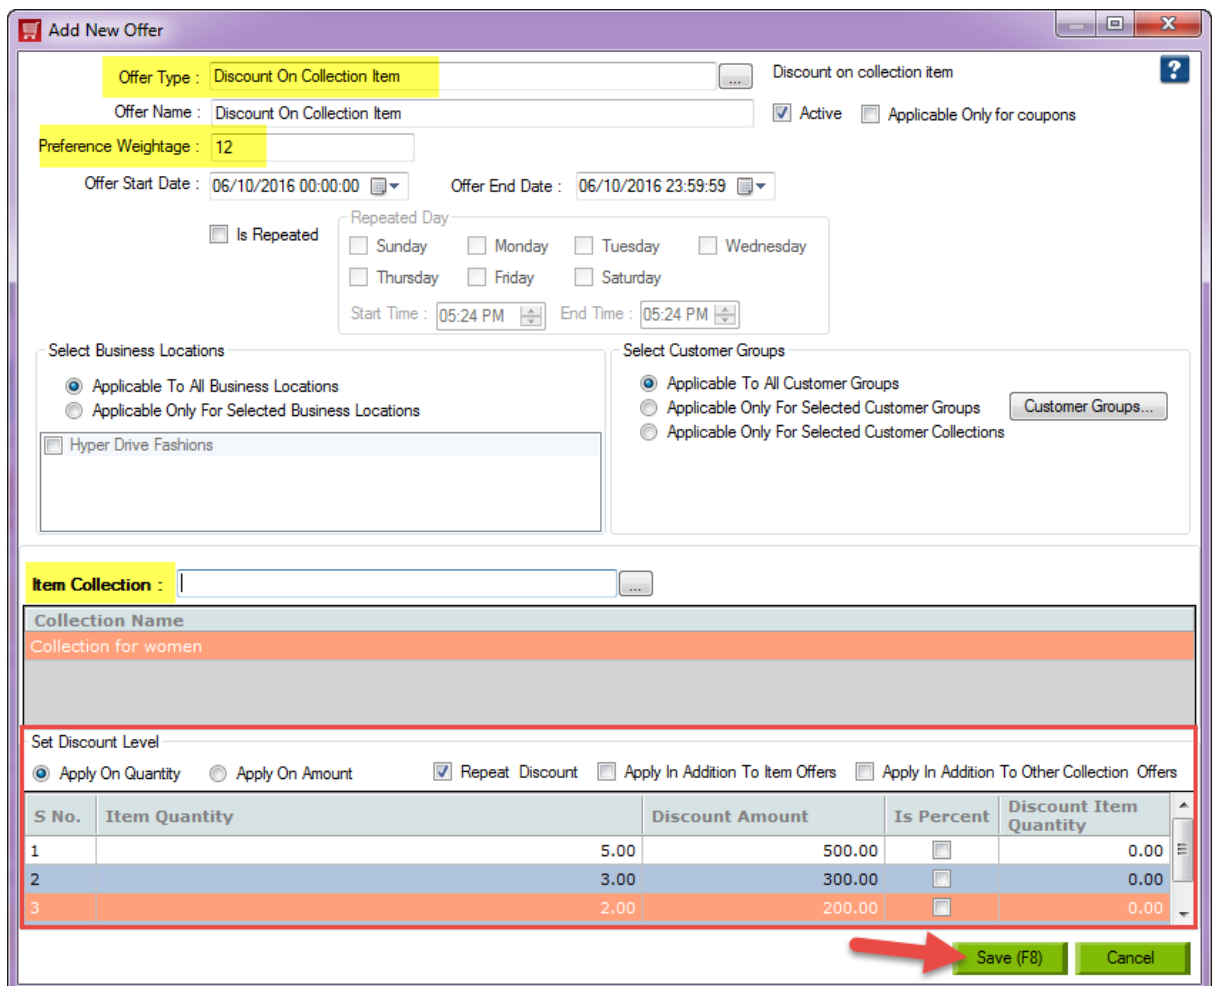

- Go to 3rd Page, click on **Offers** icon. From **Offer Manager** window, click on **Add New Offer** button.

- Add New Offer** window will open and you need to fill required details.
