Backup Database Restore Database

Go Back To Main Screen About Us Feedback

4. You will be asked to save the file as shown below. Select a location and save it.

Save in: Desktop

My Recent Documents

Desktop

My Documents

My Computer

My Network Places

File name: Item List

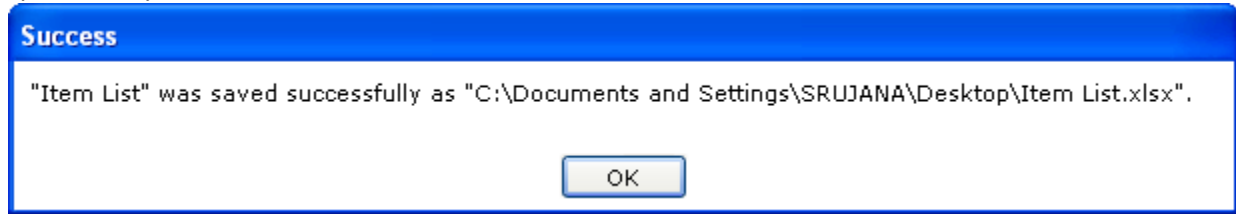

Save as type: Excel Workbook (\*.xlsx)

Save Cancel

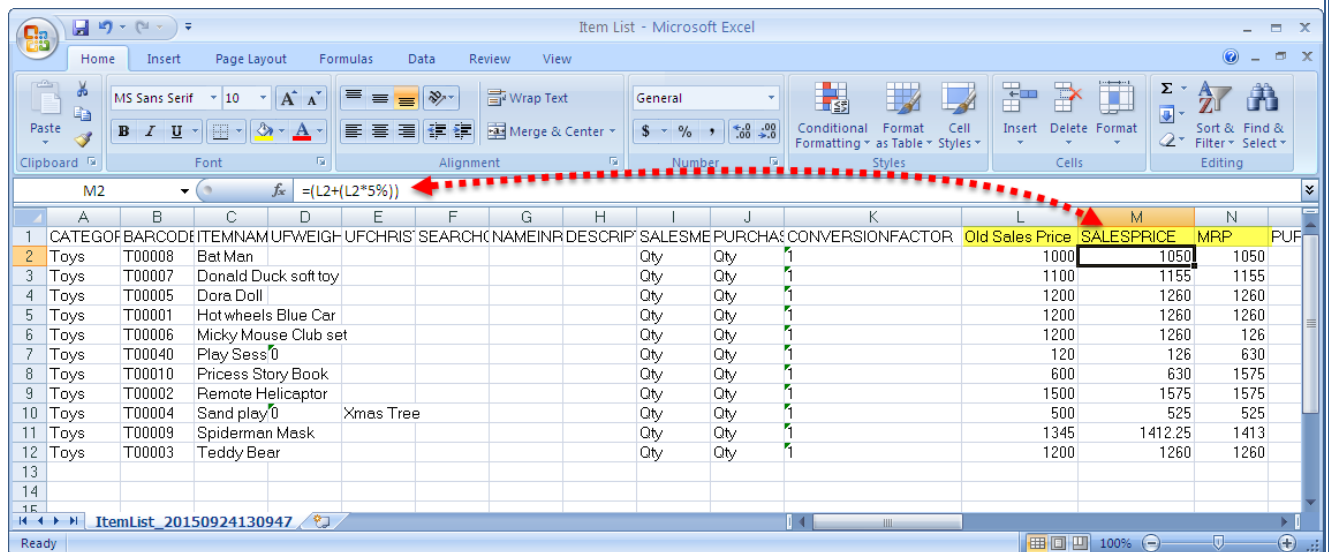

- You will see a success message box showing the location of file and click on OK. The excel file will be opened for you.

- Go to column **SALESPRICE** and rename it to **Old Sales Price**.
- Add a new column after '**Old Sales Price**' column and give it the name **SALESPRICE**.
- Add the formula as shown below in the **SALESPRICE** column and the MRP column also.  
**For Example:** I wanted to increase the sales price by 5 %.  
So gave the formula for new sales price as (old sales price+ (old sales price\*5%)).  
Type the formula as per the column code. In the below image the column code is L. So the formula is given as shown in the image below.
- Save the excel file and close it.

- Go back to HDPOS smart. From **Manage Items** screen, click on the **Upload Items** button from the tool strip.
