

# How to install HDRestaurant CS (Client Server)?

HDRestaurant Tutorials

**HDRestaurant** is a feature-rich, easy to use Point of Sale billing, inventory, and accounting management software available for a **14 days FREE TRIAL**.

The client server version can be installed on PCs with different hardware/software configurations subject to fulfillment of the Basic System Requirement which are listed on our website, we request you to visit the [System Requirements](#) page before proceeding with installation.

The steps to install HDRestaurant Client-Server are shown as below:

1. Click on <https://www.hyperdrivesolutions.com/hdrestaurant/download> into your browser, and click on **Download HDRestaurant CS** under **Download HDRestaurant for Multiple Cash Registers**.

Free trial for 14 days

If you have a need of multiple cash registers and a single database server, you need HDRestaurant for multiple cash registers.

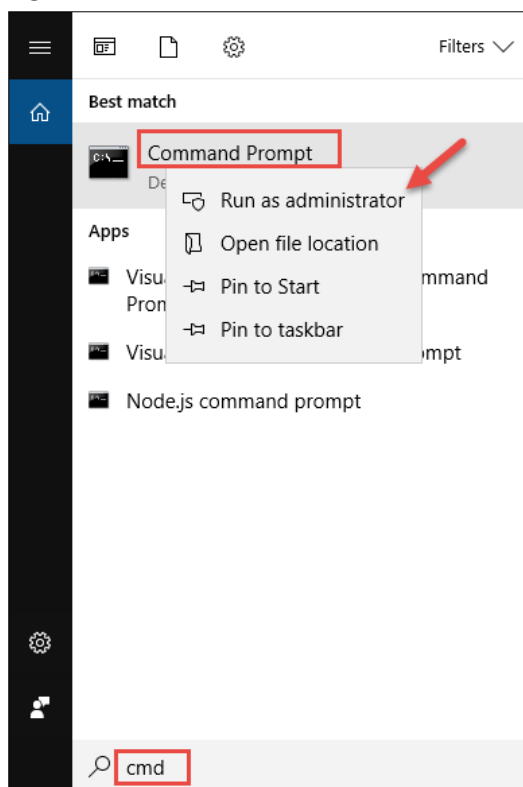

[Download HDRestaurant CS](#)

This is **full functionality software download**. Register it for **free** and get a trial license key for 14 days.

**Please note:** if you are running Windows 7 and facing problems with application installation, most likely you need .Net framework 4.0 runtime.

See [System Requirement](#) section for details. Also read our [Tech Talk](#)

2. Click on the Start button and type '**cmd**'.
3. Right-click on cmd.exe and click on **Run as administrator**.

4. Type `cd\` and click on enter key to go to root folder.

5. You would now need to go to the location where you have saved the msi that you downloaded. You would need to enter cd till you reach the desired folder.

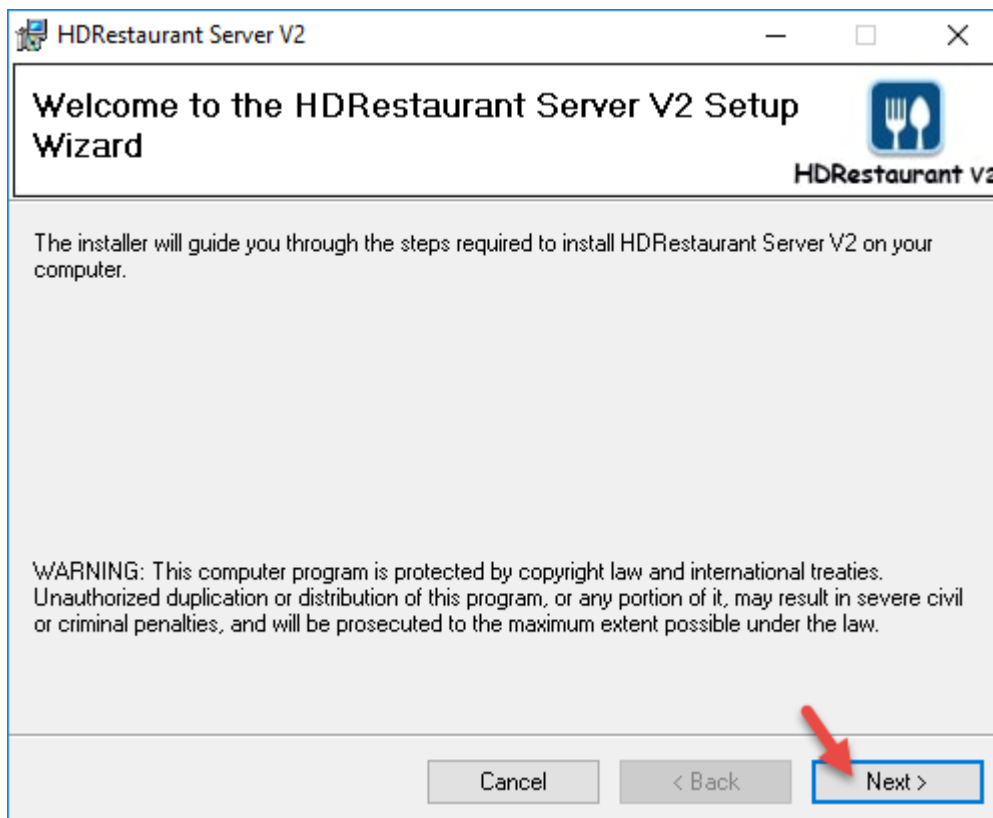

```
Administrator: Command Prompt
Microsoft Windows [Version 10.0.16299.431]
(c) 2017 Microsoft Corporation. All rights reserved.

C:\WINDOWS\system32>cd\

C:\>cd C:\Users\Manoj\Downloads

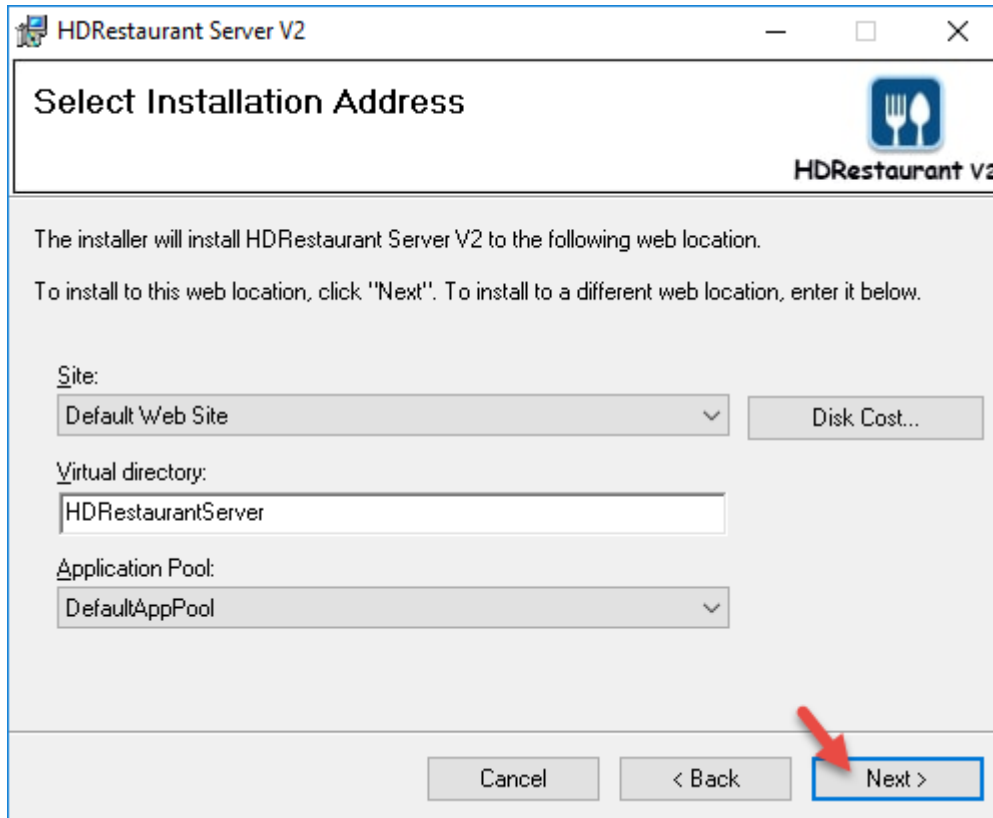

C:\Users\Manoj\Downloads>"hdrestaurantv2-server-setup.msi"
```
