

How to set Indian Rupee symbol as currency Symbol in HDPOS smart?

To set Indian Rupee symbol as currency Symbol in HDPOS smart, follow the steps below:

1. Before doing settings in HDPOS smart, you make sure that the font for Indian rupee symbol is installed in your computer.
 - a. Install Rupee_Foradian.Ture Type font file.
 - b. Copy that file to Control Panel\Fonts folder.
2. Run **HDPOS smart**. Click on the **Set-Up** button in the main screen.

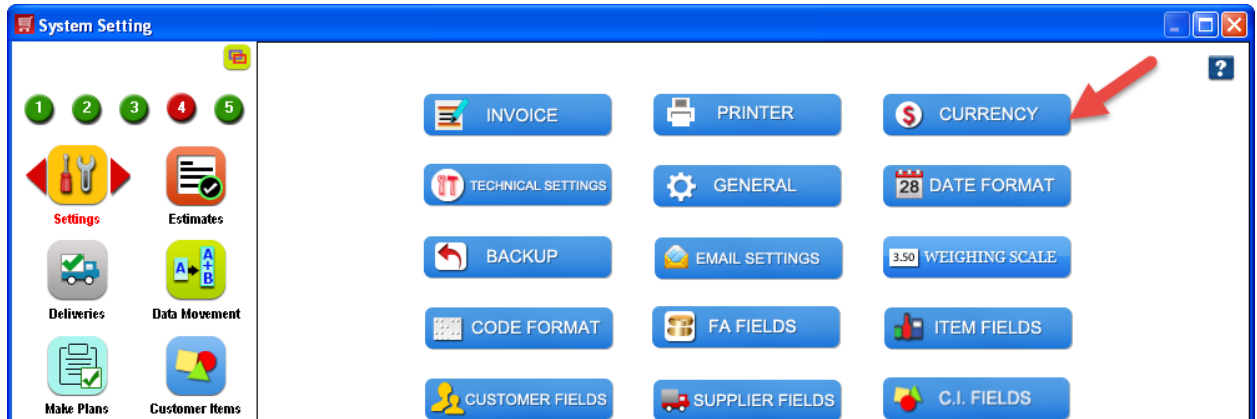

3. From Set-Up screen, go to 4th page and click on **Settings**.

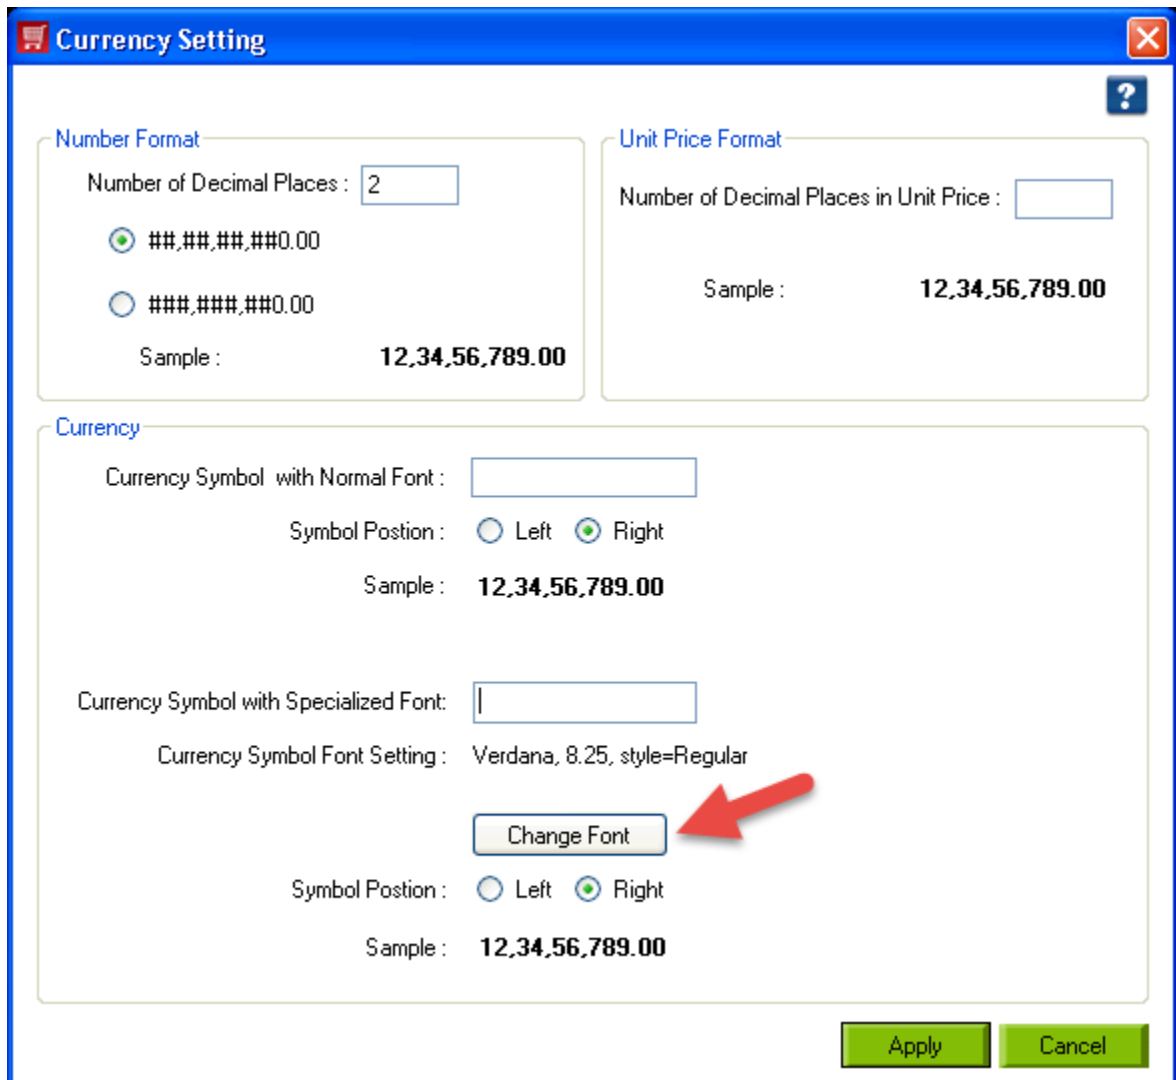

- From **System Setting** screen, click on **Currency**.

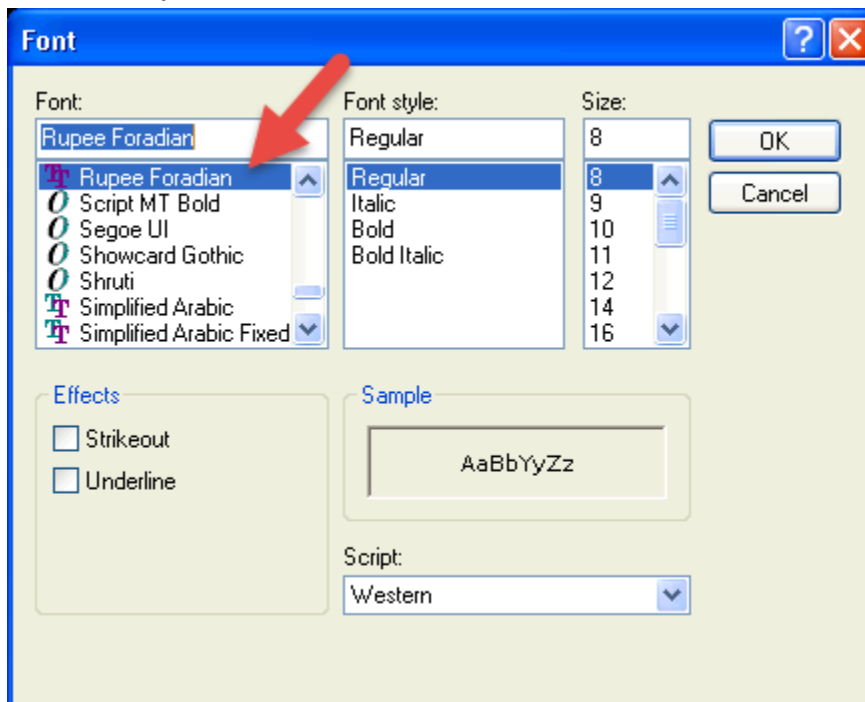

- From **Currency Setting** screen, click on **Change Font** button.

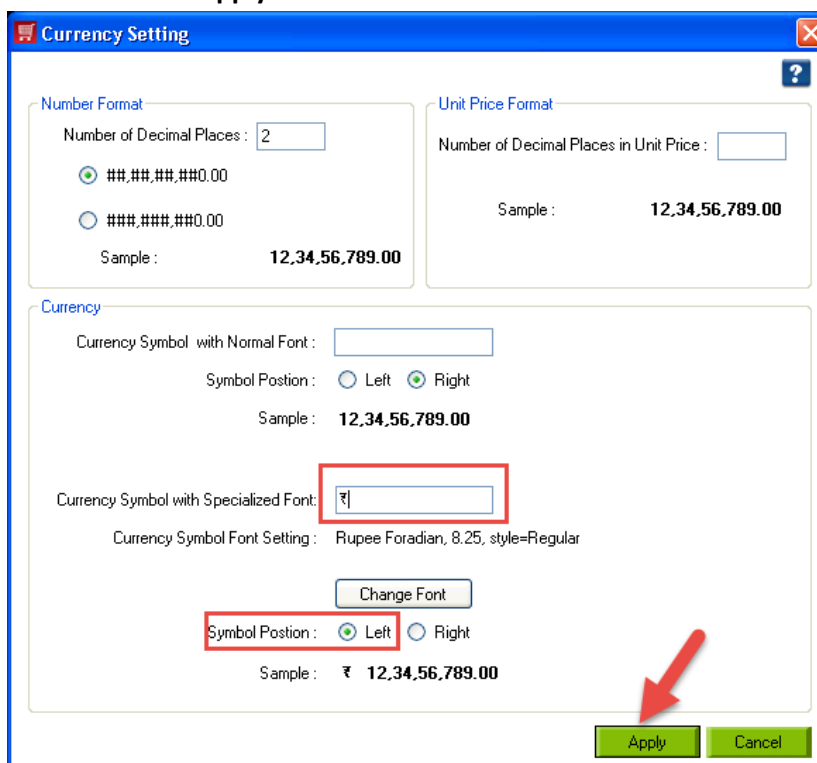

6. Select the **Rupee Foradian** font and click on **OK**.

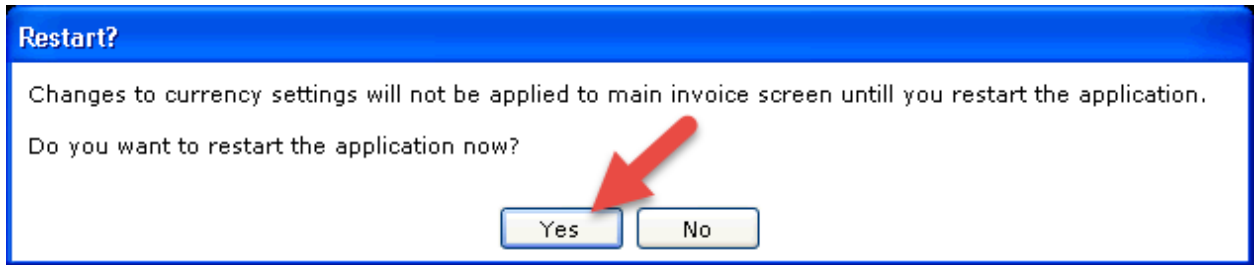

7. Keep the cursor in Currency Symbol with Specialized Font filed, type the ~ symbol. It will automatically turn into ₹ symbol.
 - a. Check the **Symbol Position** as left or right.
 - b. Click on **Apply**.

8. A message will be shown as below. Click on Yes to restart the HDPOS smart to apply the currency changes.

9. When HDPOS smart opens up after restarting, you can observe the Rupee Symbol on the main screen.
