

How to upgrade your HDRestaurant (Stand Alone)

HDRestaurant will have newer releases with more features added to already feature-rich software. Additionally, newer releases might have bug-fixes and performance improvements. You can update your application anytime to avail the newly added features and benefit from them.

NOTE: Kindly backup your database before proceeding with updating the application.

The steps to update the HDRestaurant application are as shown below:

1. Click [here](#) to go to the download page
(Copy-paste <http://www.hdpos.in/hdrestaurant/download> into your browser if the link did not work)
2. Click on **Download HDRestaurant SA** in the 'Download HDRestaurant for Single Cash Register' section to download the application.

The screenshot shows a web browser window with the URL www.hdpos.in/hdrestaurant/download#. The page title is "Download HDRestaurant for Single Cash Register". The main content area includes a "Free trial for one month" section with a product image for "HDRestaurant STAND ALONE". A red arrow points to the "Download HDRestaurant SA" button. Below this, there is a "Please note" section and a "Features" list.

Free trial for one month

If you are just starting to automate your store and have a single cash register, you need **HDRestaurant** for single cash register.

[Download HDRestaurant SA](#)

This is **full functionality software download**. Register it for **free** and get a trial license key for 30 days.

Please note: if you are running Windows XP and facing problems with application installation, most likely you need .Net framework 3.5 runtime.

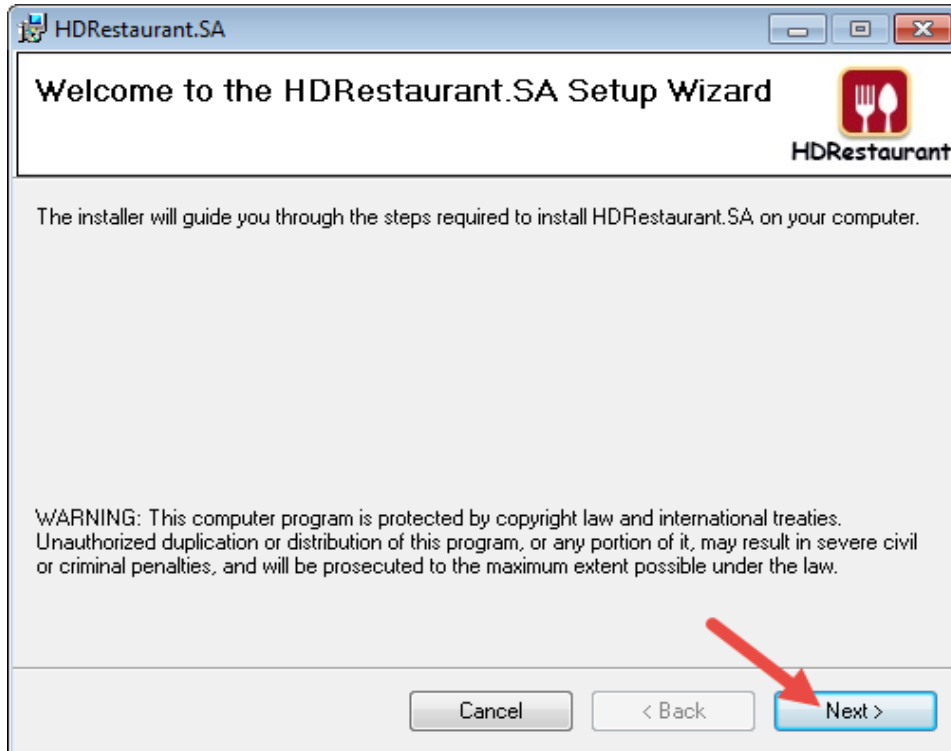

See [System Requirement](#) section for details. Also read our [Tech Talk](#)

- Quick clean setup takes less than 5 minutes
- Initial installation does not require SQL server or any other database.
- HDRestaurant also works with Microsoft SQL server and is capable of handling large data efficiently
- Easy to use affordable POS system
- Fast and accurate checkout for your customers
- Introductory [Low](#) prices with amazing features

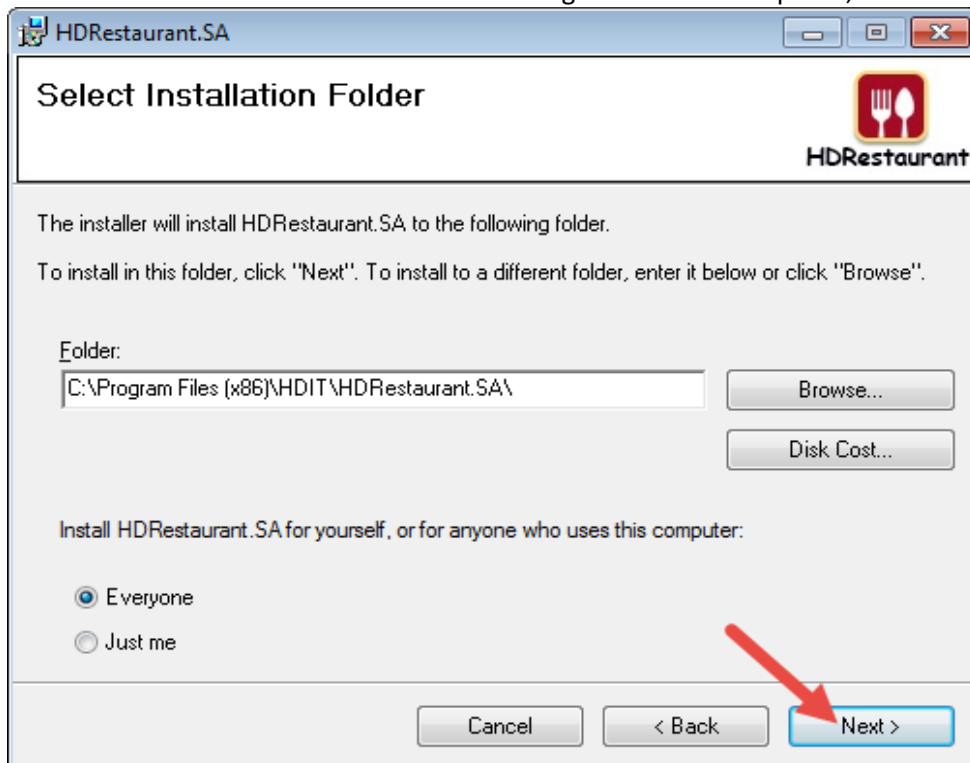

3. Double-click on the downloaded file to install.
4. Click on **Next**.

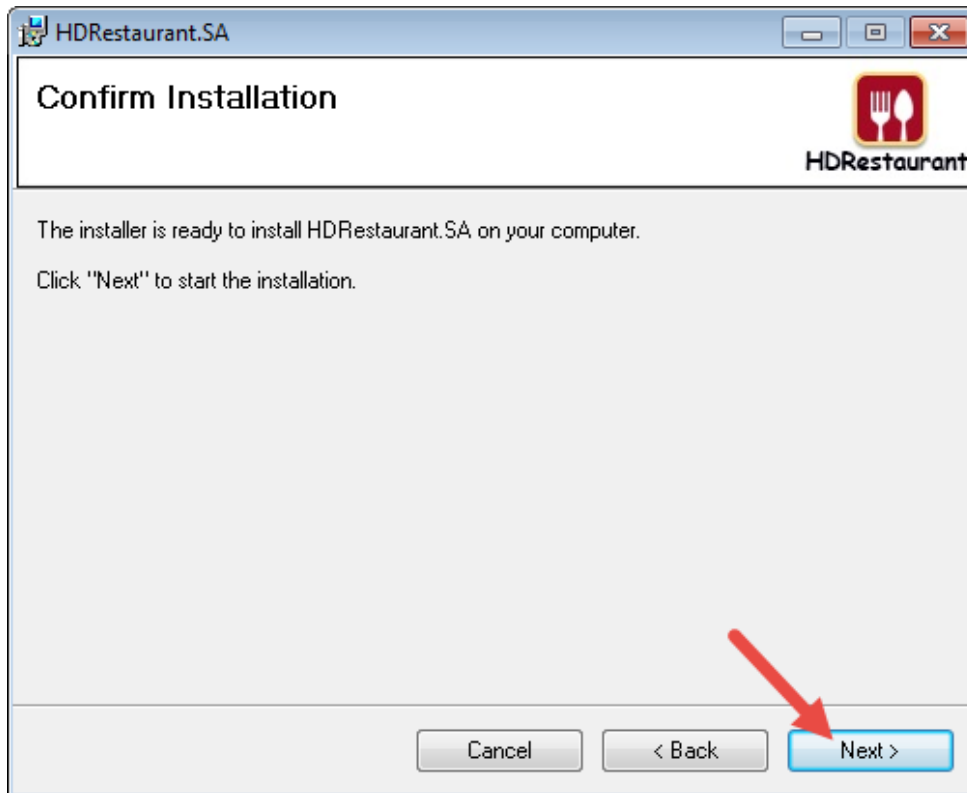

5. The default installation folder is selected. Change the folder if required, and click on **Next**.

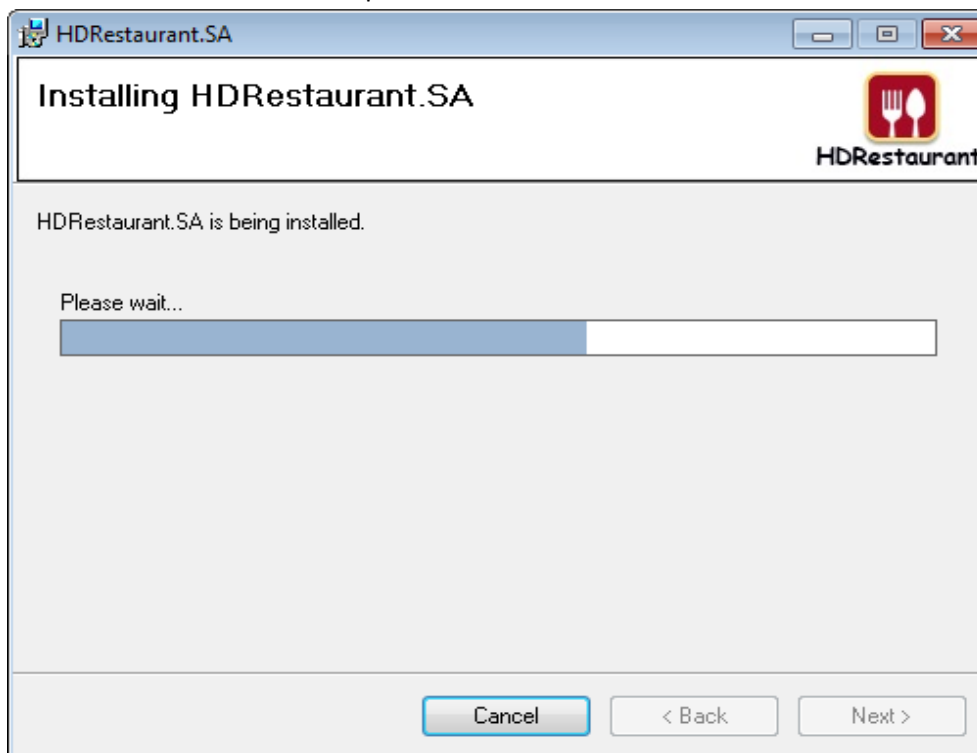

6. Click on **Next** to confirm installation.

7. Wait till the installation is completed

8. Click on **Close** once the installation is complete.
