

How to upgrade your HDSalon (Stand Alone) version?

HDSalon will have newer releases with more features added to already feature-rich software. Additionally, newer releases might have bug-fixes and performance improvements. You can update your application anytime to avail the newly added features and benefit from them.

NOTE: Kindly backup your database before proceeding with updating the application.

The steps to update the HDSalon application are as shown below:

1. Click [here](#) to go to the download page
(Copy-paste <http://www.hdpos.in/hdsalon/download> into your browser if the link did not work)
2. Click on **Download HDSalon SA** in the 'Download HDSalon for Single Cash Register' section to download the application.

The screenshot shows a web browser window with the URL www.hdpos.in/hdsalon/download. The page title is "Download HDSalon for Single Cash Register". The main content area features a "Free trial for one month" offer. On the left, there is a product image for "HDSalon STAND ALONE" with "HYPER DRIVE" branding. Below the image are "Features" and "Buy Now" buttons. To the right of the image, there is a pink button labeled "Download HDSalon SA" with a download icon, which is highlighted by a red arrow. The text next to the button says: "If you are just starting to automate your store and have a single cash register, you need HDSalon for single cash register." Below this, it states: "This is **full functionality software download**. Register it for **free** and get a trial license key for 30 days." A "Please note:" section follows, mentioning Windows XP and .Net framework 3.5 runtime. At the bottom, there are two columns of bullet points listing features and system requirements. A red circular user profile icon is visible in the bottom right corner of the page.

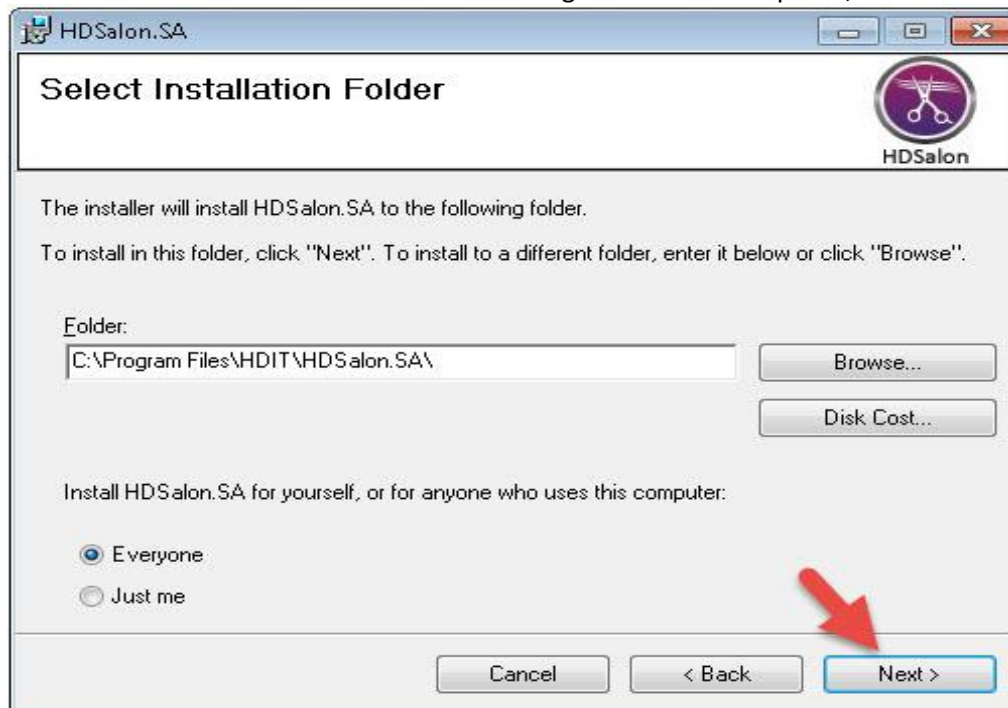

3. Double-click on the downloaded file to install.
4. Click on **Next**.

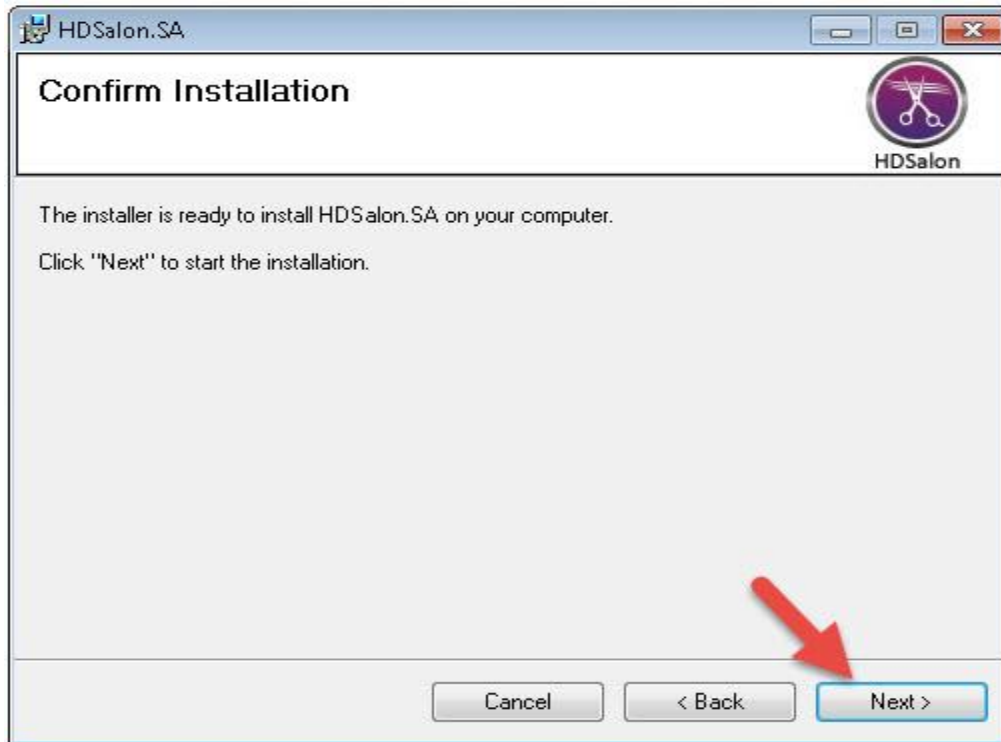

5. The default installation folder is selected. Change the folder if required, and click on **Next**.

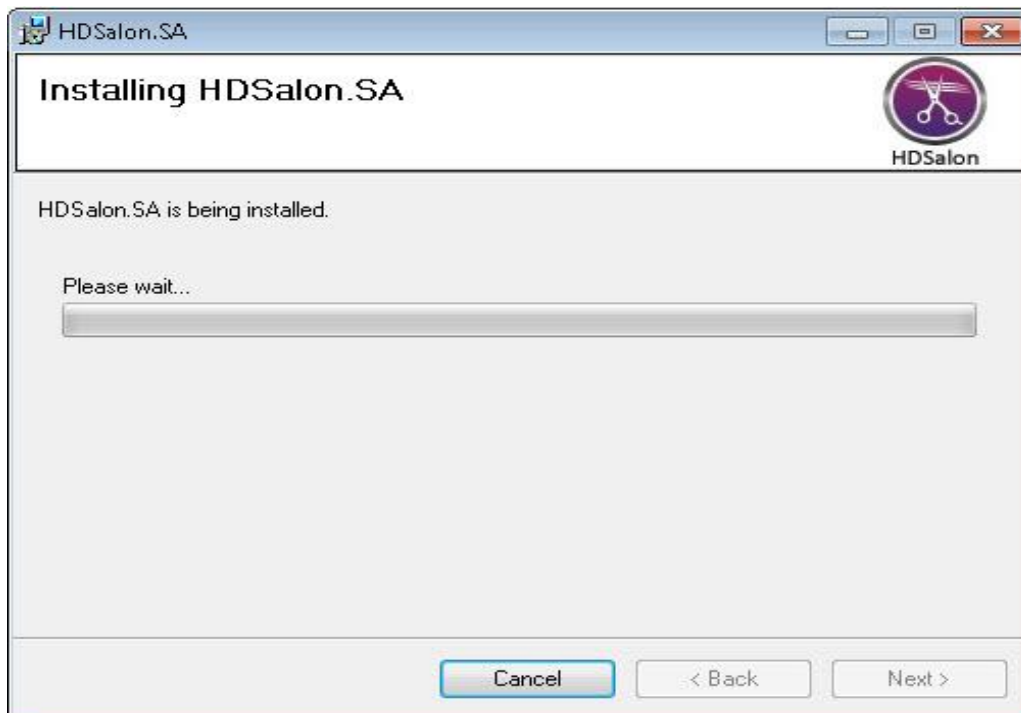

6. Click on **Next** to confirm installation.

7. Wait till the installation is completed

8. Click on **Close** once the installation is complete.
