- **Godown:** Select the godown for which you want to see the stock drill down.
- **Select the Category Tree:** To view the drill down, a category tree must be selected. Automatically, the default category tree is selected.

**Note:** Please refer to our document "How to create a category tree in HDPOS smart?" from

<http://hdpos.in/ReportHandler.ashx?TutorialId=hd-20150318-1207-53428-158-00000-000>.

- If you have more than one category tree, you can select the other ones by clicking on the [...] button and click on **Apply**.

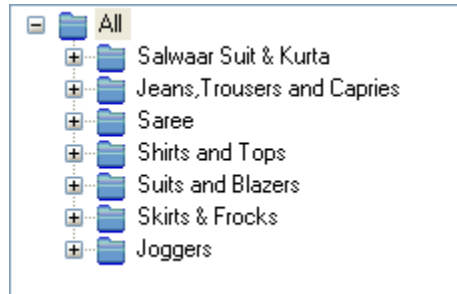

Select Category Tree :

Default [...] **Apply**

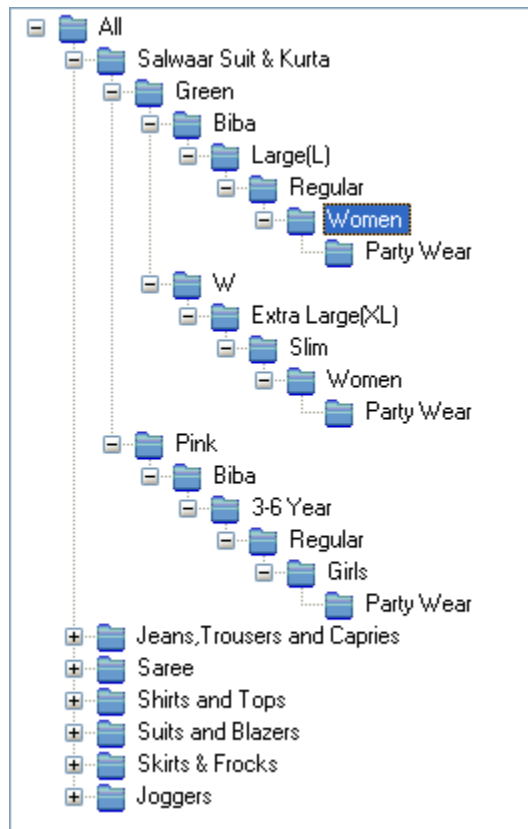

- Below the category tree, you can see all categories are displayed with all user field details. By default you can see the details as shown below.

- Click on the  button, to see all user fields defined in your HDPOS smart. For e.g. when I clicked on the category Salwaar Suit & Kurta, you can see the user fields as shown below.

- In the same way, you can see details for all other categories also.
- Every time you click on the category or item fields, a box will be shown to you as below, after which all the stock details are displayed.

### Loading Stock Values

Loading Stock values , please wait ...

- **Show Only Inactive Items** checkbox: When this checkbox is checked, only the inactive items stock details are shown to you.
- **Show Inactive Items also** checkbox: When this checkbox is checked, along with active items, inactive item's stock also is shown to you.
- **Show Zero Stock Also** checkbox: When this checkbox is checked, the items with zero stock are also shown to you.
- **Show Next Level** radio button: When this button is checked, you can see the level wise stock details as shown below.

The screenshot shows the 'Stock Drill Down' application window. The window title is 'Stock Drill Down'. The interface includes a category tree on the left, a breadcrumb path at the top, and a data table at the bottom. The breadcrumb path is 'Salwaar Suit Kurta > Green > Biba > Large(L) > Regular'. The data table has the following columns: 'ufGender', 'Total Quantity', 'Total Sales Price', and 'Total Purchase Price'. The table contains one row for 'Women' with a total quantity of 39, a total sales price of 1,01,361.00, and a total purchase price of 89,31. The window also displays various filters and options, including 'Show Next level', 'Show Items Under Selected Group', 'Show Only Inactive Items', 'Show Inactive Items also', and 'Show Zero Stock Also'. The window also shows a 'Quantity' of 39.00, a 'Sales Price' of 1,01,361.00, a 'Purchase Price' of 89,310.00, and a 'Difference in Price' of 12,051.00. The window also has a 'Close' button at the bottom right.

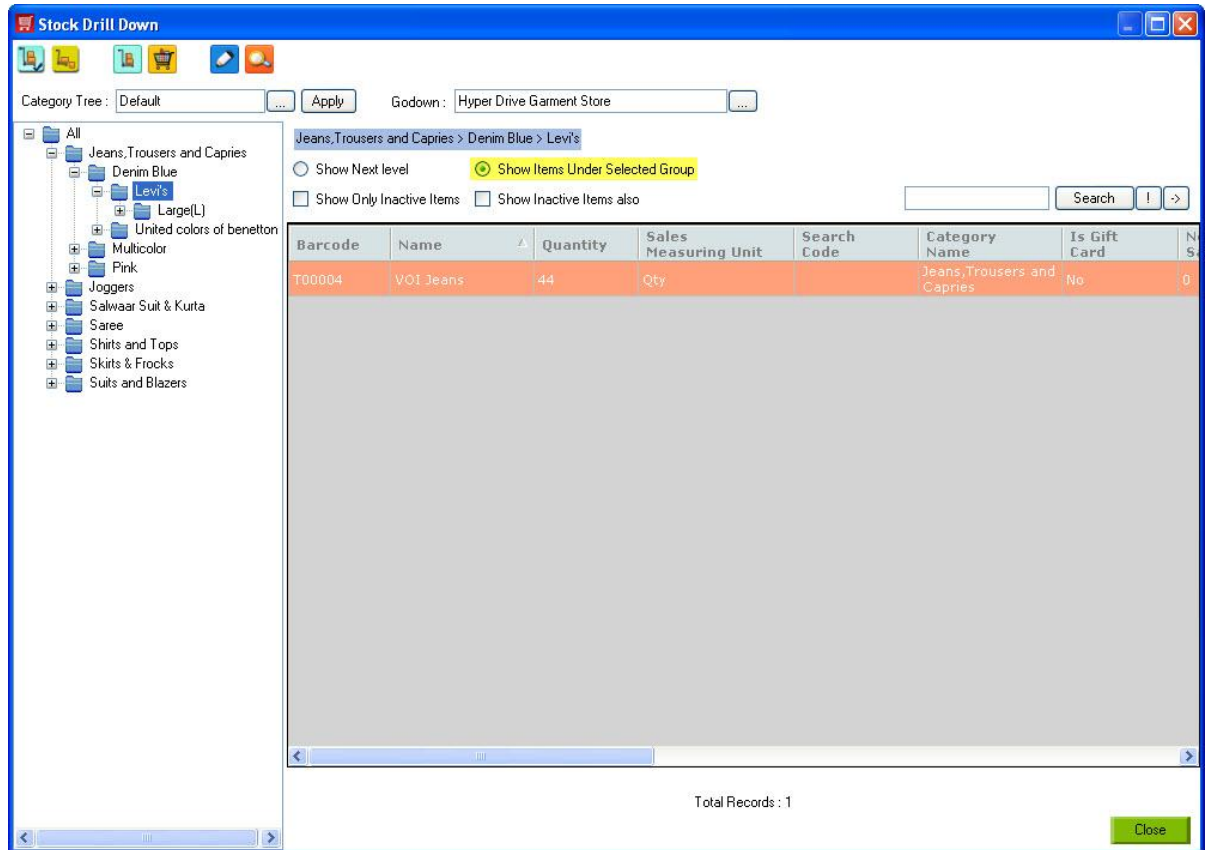

ufGender	Total Quantity	Total Sales Price	Total Purchase Price
Women	39	1,01,361.00	89,31

When you see level wise details,

- The **level** is shown for you.
- **Stock quantity** will be shown to you.
- **Total Sales Price, Total Purchase Price** and **Difference between these two** also will be shown to you in the screen.

- **Show Items under selected group** radio button: When this button is checked, you can see the item wise stock details as shown below.

When item wise stock details are shown,

- You can see all items related to the selected group.
- You can see the tool strip buttons
  - **Stock Correction** : Click on this button if you want to do stock correction.
  - **Stock Correction for Dump Items** : Click on this button if you want to do dump stock correction.
  - **Show Stock** : Click on this button if you want to see the stock details of any particular item.
  - **Manage Items** : Click on this button if you want to see the Item Manager screen.
  - **Edit Item** : Clicking this button opens the selected item in edit mode, so that any changes to the item can be done here.
  - **View Item** : Clicking this button opens the item in View mode so that you can see the item attributes.
